- Color Pigments
- Filler
- Sealer
- Mesh
- Burnishing Pad

Everything in the kit is available individually.

Envision Concrete Countertop Products

Taking the guesswork out of concrete countertops.

HOW TO CREATE ENVISION CONCRETE COUNTERTOPS

Envision's unlimited design possibilities allow anyone to create unique, handcrafted custom countertops.

Tools Needed:

- X Standard Carpentry
- X Standard Masonry

- 1** Take measurements and build mold.

- 2** Mix Envision Concrete & Color with drill and mixing paddle.

- 3** Apply 1/2" of mix to face, insert foam core, and fill remaining 1/2" with mix.

- 4** Finish countertop to desired look, ie. veined, polished, sanded, etc.

- 5** Apply Sealer.

- 6** Install using standard countertop installation.

Benefits of Using the Envision System:

1. Any Size, Shape or Color
2. Easy
3. Strong
4. Lightweight
5. Economical

The Envision System has three different standard finishes: Veined; a natural stone replica. Sanded; exposed limestone gives an organic finish. Polished; sleek and modern.

Envision Products are available in a Kit that has everything included to do 4sf @ 2" thick with a 1" foam core, or you purchase products individually.

Envision Mix: Unlike standard concrete countertop mixes, Envisions optimized mix uses specific limestone aggregates as well as fiber reinforcement. This gives our mix incredible strengths, brighter colors, and more vivid finishes.

Filler: Specifically designed for filling veins, voids, and seams. Envision Filler is easy to work with, strong and tintable.

Sealer: Incredibly stain resistant, Envision Sealer's easy application protects your countertop from stains while leaving a natural finish, free from the plastic look associated with some sealers.

Color Pigments: In effort to increase every option of creativity and design, Envision Concrete Countertop Kit's include 8 different powdered color packets, allowing for an unlimited range of color options.
