Tuscan Color Wash

Elegant Accents for Tuscan Hand Applied Coatings

Description

Tuscan Color Wash system is a toner based method for easily adding a traditional renaissance look to any field applied wall. Staining, shading, and frescos are created with a simple spray bottle system. Tuscan Color Wash Kit includes 12-8oz jars. All colors are available as singles in 16oz jars.

Uses

Because of the virtually unlimited design capabilities color washing provides, countless color tints, shades, and looks can be easily achieved. Interior or exterior, focal walls or large partitions, color washing will give your wall a dramatic effect simply and affordably.

Coverage

All coverage's are approximate and depend upon details and individual application technique. When mixed 50:1 water to color ratio (in ounces) with clean water Tuscan Color Wash will stain approximately 100sf.

Materials Needed:

- Spray Bottles (small to medium jobs)
- Pressure Pump Spray Bottles (small to medium jobs)
- Airless Spray Pump (medium to large jobs)
- Five Gallon Bucket(s) (medium to large jobs)
- White rags
- 9" wide 1/4" Nap Roller

Mixing Instructions:

1. Fill bucket or spray bottle with clean water.
2. Add Tuscan Color Wash Colorant to bucket or spray bottle.
3. Mix the colorant completely.
4. Using spray bottles saturate the wall completely with clean water. This allows for longer work times and more control over application.
5. Start from left to right in an "S" type motion when applying color.
6. Dab up any drips or runs with rags.
7. Allow Color Wash to be dry to the touch before sealing it.
8. Once dry, roll or spray on Tuscan Sealer.
9. Using a clean rag, wipe up remaining drips or overspray with warm soapy water.

Tuscan Stoneworx assumes no liability, expressed or implied, as to the architecture, engineering or workmanship of any project. To ensure that you are using the latest, most complete information, contact Tuscan Stoneworx.

Colors/Finishes:

Available in 12 standard colors, Tuscan Color Wash can be blended together to create any color your imagination can dream. Colors correlate with standard color wheel.

- | | |
|-------------------|-----------------|
| • Sunrise Yellow | • Forest Green |
| • Earth Brown | • Winter White |
| • Chocolate Brown | • Golden Yellow |
| • Rambling Rose | • Burnt Red |
| • Midnight Black | • Lemon Yellow |
| • Exotic Blue | • Siren Red |

Tips & Tricks

- Before getting started always make a working sample for quality control on your project. Doing so will insure that your consistent with the color desired.
- Adding clean water first will keep Colorant from sticking to the sides or bottom of container.
- The color wash system can be mixed to any desired ratio, but a great starting point is 50:1.
- Wetting the wall down first will give you more control of color. It will also allow multi-colors to blend together easier.
- Applying colorant in an "S" type pattern is a great way to start, however any technique will work.
- Use rags to dab up drips, you can also use your rag to take off more color or manipulate the color to where you prefer it.
- When applying sealer, make sure there are no drips or heavy overlapping. If you do get overlapping continue to roll until line disappears.
- Color Wash can be removed with soap and water, if finished wall has been cured and sealed prior to application.
